hi. i'm a berlin based hacker  
with 7+ years of experience  
in building amazing products,  
e.g. at fraunhofer institute  
or as the cto and co-founder  
of upload aka fitanalytics.com.  
i can build your product too.  
get in touch.

hello. i build amazing products  
for the computer age. smooth,  
solid, flexible and maintainable!  
i've bootstrapped upload aka  
fitanalytics.com and created  
a bucket of neat apps.  
i can also build something for  
you, get in touch!

hi. i am creating rich and  
smooth user interfaces backed  
by solid, fast and scalable  
back end systems.

i have worked through the entire  
technology stack for 7+ years.  
get in touch if you need something  
built or just want to chat.
